

Anish Patil | Senior UX/UI Designer

anishpatil108@gmail.com | +91 90821 33493 | Mumbai | Behance: <https://www.behance.net/anishpatil0>

Summary

UX/UI designer with 2.5+ years of experience delivering end-to-end platform experiences for EdTech products. Specialized in user research, interaction design, heuristic evaluation, WCAG accessibility patterns and scalable design systems. Experience in leading projects, mentoring, driving metrics-based decisions, and product strategy across cross-functional teams.

Experience

Senior UX Designer at Zeus Learning, Mumbai

Jun 2023 - Present

Quantum | Flagship product used by students, administrators, and publishers for digital learning and content delivery.

- Leading end-to-end redesign of the student and teacher experience, while improving discoverability and workflow by 40%.
- Redesigned 25+ legacy modules and delivery before timeline reducing design delivery time by 15%.
- Designed and delivered key modules like AI-driven student evaluations, two-factor authentications and platform-wide notifications.
- Built a scalable design system with standardized visual components that boosted the design-to-development handoff by 23%.
- Managing a team of 3 designers, coordinating with stakeholders, managers, and planning across a 40+ cross-functional team.

PASCO Sparkvue | Award-winning, cross-platform data collection and analysis software for students in STEM domain.

- Co-led complete accessibility overhaul of a previously non-compliant platform and achieved 100% WCAG 2.2 AA compliance.
- Conducted accessibility research against industry-benchmark accessibility standards and competitors and proposed best-fit solutions for the client.
- Mentored a team of 2 designers, driving planning, workflow clarity through structured design documentation.
- Designed accessible UI patterns, including screen reader support, and full keyboard navigability for all core interactions.
- Conducted collaborative reviews with accessibility experts, ensuring remediation and validating compliance.
- Key Achievement - Joined a delayed project and led execution recovery, accelerating delivery to bring the timelines one month ahead of schedule.

EPS Learning | Intensive, structured, multisensory reading instruction for grades PreK-12 including students with dyslexia.

- Designed end-to-end student activity modules and guided lesson plans for teachers to improve literacy outcomes.
- Conducted competitor analysis, created information architecture and workflow documentation as part of the design process.
- Client-facing role, leading design discussions and presentations with client stakeholders and internal cross-functional teams.
- Key Achievements - Chronic absenteeism reduced by 17% and average monthly suspensions dropped by 20% post-implementation.
